THANK YOU TO OUR EXHIBITORS

Sanders Engineering & Analytical Services, Inc. (SEAS) was founded in 1978 in answer to a need for quality engineering firms to conduct the activities necessary for the gaining of permits under the Clean Air Act and the proposed PSD regulations. SEAS has the experience and capability to perform all your source testing requirements. Our staff has extensive training, certifications and experience in ASTM, EPA, NCASI, NIOSH, and SW-846 test methods. Whether the requirements are for standard EPA compliance testing or for complex on site gas chromatography or FTIR, we have multiple test teams and mobile laboratories equipped to meet the need. In addition to performing state and federal compliance tests, SEAS has the capability of designing individualized test programs to accommodate the specific needs of our clients.

PPM Consultants is an environmental engineering and consulting firm with over twenty-nine years of experience serving enterprises small and large. PPM serves the petroleum marketing, industrial, commercial real estate, legal, and oil and gas sectors, as well as local, state and federal government. Since opening our doors in 1994, PPM has achieved steady growth by consistently providing high-quality, cost-effective solutions to our diverse client base. PPM is comprised of professionals with expertise in multiple disciplines including engineering, geology, biology, toxicology and environmental science. We've handled 29,000 environmental projects, worked in 26 states, and have a staff with 30 plus years of experience in the environmental services field.

Since 1978, LaBella has been a trusted provider of engineering and consulting services. The pursuit of partnership is embedded in our culture and it affects client outcomes in profound ways. It means we're built to expertly execute projects from start to finish. That we have the talent and resources to take on any challenge. That projects are completed on time, on budget, and beyond expectations. Because we have experience working with many diverse types of clients, on many types of projects, we have unique insights regarding the challenges each may face. Today, our wheelhouse is broad, with four key service offerings: Buildings, Energy, Infrastructure, and Environmental (Waste & Recycling).

Established in 1995, Action Environmental provides planned environmental remediation & construction services, industrial services, waste management, transportation, and painting & coating services from offices located in Decatur, AL, Hanceville, AL, Sylacauga, AL, Miami, FL, Tampa, FL, Memphis, TN and Dallas / Ft. Worth, TX

ESC Spectrum is a leading provider of products and services for customers in a variety of industries, from Electric Power, Petroleum, and Ethanol to Glass, Food and Beverage, Pulp and Paper, and more. For over 50 years, we have been helping our customers meet and report compliance with air emissions standards. Our Data Acquisition System (DAS) software is the market leader in helping plants comply with federal, state, and local air quality regulations requiring Continuous Emissions Monitoring Systems (CEMS). We provide a full suite of CEMS Services, including CEMS maintenance and repair, custom CEMS system design, training, and more, and supply a wide variety of CEMS and Process equipment.

Trinity provides a unique blend of consulting services, software, and training to meet the needs of clients in areas related to environmental regulatory compliance and environmental management. Founded in 1974, Trinity Consultants is an international firm that served more than 5,000 client sites from 59 offices across North America and in the U.K., Ireland, China, Singapore and Australia.

Wherever you are on your project journey, Terracon's employee-owners are ready to meet you where you are and help you reach your goal. Since our founding in 1965, Terracon has grown into a thriving, employee-owned, multidiscipline engineering consulting firm delivering facilities, environmental, geotechnical, and materials services. Our more than 6,000 curious minds include engineers, scientists, architects, facilities experts, and field professionals focused on solving engineering and technical challenges from more than 175 locations nationwide. On-time and real-time data-driven insights, provided by our talented employee-owners, create an unmatched client experience that spans the lifecycle of any project from earth to sky. Terracon consistently ranks as a top 20 design firm by Engineering News-Record. Our successful growth has included organic expansion and innovation and acquiring more than 60 firms with specialized capabilities. A focused and uncompromising dedication to safety has been integral to how we support our employees, clients, and communities. Throughout the life of your project, we won't just point the way – we'll go with you. Together, we are explorers turning big ideas into reality for our partner clients, employees, and the world around us. From site selection to the design and construction to maintaining the structure's life, we'll help you succeed through engineering and scientific expertise, a passion for problem-solving, and a drive to explore.

CALL

FOR NOMINATIONS

FOR THE ALABAMA CHAPTER BOARD

VICE CHAIR

3 year commitment (2024 Vice Chair, 2025 Chair, 2026 Director)

Assumes the duties and functions of the Chair in the event that the office of the Chair shall become vacant through resignation or other reasons; and presides at meetings in the absence of the Chair;

DIRECTOR (SOUTHERN SECTION LIAISON)

3 year commitment ending in January 2027

Carries out executive, financial, and administrative functions of the Chapter as necessary;

Attends Southern Section meetings

DIRECTOR

Two year commitment in January 2026

Carries out executive, financial, and administrative functions of the Chapter as necessary

DON'T LET YOUR VOTE GO TO WASTE

Please submit your nominations to

alawma@gmail.com by **Monday, December 4, 2023.**

Elections will close **Monday, December 18, 2023.**

Meet Our 2023 Scholarship Winners

Preston's Story

My name is Preston Key. I am currently a senior at Auburn University, majoring in civil and environmental engineering. My time at Auburn has been amazing, and I would not trade it for anything. I have had the amazing opportunity to work three full semesters as a co-op student at AMERICAN Cast Iron Pipe Company (ACIPCO) in Birmingham, AL, as an environmental engineer. ACIPCO has exposed me to many aspects of a professional engineering environment while also giving me full exposure to the many responsibilities of an environmental engineer. As graduation approaches, I plan to continue growing my relationship with ACIPCO and finishing out strong in my classes!

Preston Key

Baeli's Story

My name is Baeli Allison Porter, and I am attending the University of Alabama at Birmingham. I am currently a senior and will graduate after the end of spring 2024 semester. I was previously a co-op with Southern Company for four semesters. I got an amazing opportunity to sign a full time offer with Southern Company and plan to work in the sitework design group. After I get a total of four years of experience under a licensed PE, I plan to take the PE exam and become a licensed professional engineer.

Baeli Allison Porter
